Powersports Business readers will be interested to learn that Yamaha Motor Co., Ltd. has announced its consolidated business results for the first quarter.

Ever since the late '60s, various outboard manufacturers have used a number of different electronic ignition systems. Early ignitions used battery-powered systems, with alternator powered systems later becoming more common. If like most do-it-yourselfers you've relied on a sketchy owners manual. With this guide you will gain a better understanding of the ignition components and how the ignition system operates and learn how to quickly determine if your problem is electrical or mechanical. CDI Electronics has been the leader in outboard marine ignition technology since 1982. This technical manual is a step by step guide to your outboard ignition for the following manufacturers: General Troubleshooting Information Chrysler/Force Johnson/Evinrude Mercury Tohatsu/Nissan Yamaha Plus DVA and Resistance Charts

Comprehensive troubleshooting guide for most outboard marine engines. Includes detailed diagnostic tips, DVA measurements, engine specific test data, and much more.

Surveys the latest developments in safety systems, marine electronics, radar, and communications, and includes information on tides and currents, weather, and navigation.

"Stark, beautiful and full of imagery." Shadows in the Light is a modern day testimony to the complexity of life and the difficulties we all face. These poems will resonate with experiences of its readers and prove poetry can speak for us all. This is the second collection of poetry by the author Betsy Reavley.

This historical work tells the story of Captain Vancouver and his mapmaker, Lt. Baker, an ancestor of the author. It describes in authentic detail the relationships with the First Nations people they met on voyages between Vancouver and Hawaii. The book was presented in the BC Legislature. and bonus material includes questions for educators.

The anthrax attacks in September and October 2001 highlighted the need to develop medical countermeasures. The Project BioShield Act of 2004 authorized the Department of Health and Human Services (HHS) to procure countermeasures for a Strategic National Stockpile. However, in December 2006, HHS terminated the contract for a recombinant protective antigen (rPA) anthrax vaccine because VaxGen failed to meet a critical contractual milestone. Also, supplies of the licensed BioThrax anthrax vaccine already in the stockpile will start expiring in 2008. GAO was asked to identify (1) factors contributing to the failure of the rPA vaccine contract and (2) issues associated with using the BioThrax in the stockpile. GAO interviewed agency and industry officials, reviewed documents, and consulted with biodefense experts.
