Bring your science lessons to life with Scientifica. Providing just the right proportion of 'reading' versus 'doing', these engaging resources are differentiated to support and challenge pupils of varying abilities.

This series is focused on delivering custom materials which are designed and presented to meet the needs of enthusiastic and committed students. The resources are written at an average reading ability level, but with full and proper use of scientific terminology throughout. Ascent! has its own text-linked website: www.nelsonthornes.com/ascent

Bring your science lessons to life with Scientifica. Providing just the right proportion of 'reading' versus 'doing', these engaging resources are differentiated to support and challenge pupils of varying abilities.

This student book covers Levels 4-7 and is structured to match the sequence of the QCA Scheme of Work Units, and the National Framework for Science Guidelines. Each lesson can commence with a really quick starter activity. The teacher support materials, of course provide hundreds more! "Scientifica" aims to provide just the right proportion of 'reading' versus 'doing'. There is enough text on each page for students to develop their literacy skills, but each lesson spread also contains an optional activity or two to access the real experience of Science. Ideas and Evidence articles are presented in each text in a more magazine style.

Framework Science is a flexible and easy-to-use course designed to encourage students' engagement with science. Student Book Features: Colourful, engaging text and illustrations
Key words highlighted in 'language bank' boxes
Clear diagrams
Help students understand concepts
Topical science is emphasised.

Provides a teaching resource, which is designed for KS3 students, whose literacy skills are considerably lower than their age. These books have an 'older format' to counteract this simple text

Where To Download 7b Reproduction End Of Unit Test Answers

and cover relevant topics. They include activities, visuals and assessment sheets as well as teacher pages and also provide support material.

The Scientifica series offers a suite of state-of-the-art textbooks and workbooks perfectly complemented by cutting-edge electronic whiteboard resources, to make Science real, relevant, vibrant and fun. Astound your students with the latest experiments, Ideas & Evidence, a Amazing Sciencea and a Gruesome Sciencea facts.

Bring your science lessons to life with Scientifica. Providing just the right proportion of 'reading' versus 'doing', these engaging resources are differentiated to support and challenge pupils of varying abilities.

At last, a brand new fetal pig version of the classic laboratory textbook by Donnersberger and Lesak Scott! This new book is the ideal lab text for a one- or two-term course in anatomy and physiology for students planning a health science or health-related career. Featuring fifteen integrated units, each consisting of a Purpose, Objectives, Materials, Procedures, Self-Test, Case Studies, and Short Answer Questions, this comprehensive lab text makes an ideal companion to any current anatomy and physiology text, or it can be used as both a main text and lab manual.
