Residential Building Drafting & Building Design - Building ...

One way to keep them tidy and consistent is to use standards and conventions. For example there are particular ways of formatting margins, using a title block and standardising lettering sizes which are used across the industry. At Modern Edge we use drawing conventions that comply with Australian Standards for the furniture making industry. It won ' t take long for you to become familiar with the standards and conventions and most of these are meant to improve and blend your drawing skills ...

Step 2: Drawing conventions - RMIT University

The standard drawing size shall be A1 and all contract drawings shall include the standard UTS titleblocks. This titleblock (A1p-Bord.dwg) will be inserted in paper space on layer BORD-SHT at a scale of 1:1 with the bottom left hand corner at 0,0,0.

FACILITIES MANAGEMENT OPERATIONS

Some firms feel that CAD standards rest entirely on the integrity of the DWG and therefore " the beginning " is a point in the drawing. Other believe that a valid standard revolves around the proper application of company processes and therefore work should start with a collection of Best Practice documents.
