~~Time Series~~ forecasting

Forecasting

The Core Data

Science team at

Facebook

developed an

automated time-

series forecasting

package called the

prophet. It is

maintained in

parallel in both R

and Python. The

needs of massive

File Type PDF

Automated

companies like

Facebook can go

beyond the

standard A/B

testing when they

want to test many

features (and have

access to

So.Much.Data.) at

once. A lot of their

product features

can also be

influenced by

seasonal behaviors.
