Hailed as a "masterwork of bread baking literature," Jeffrey Hamelman's Bread features over 130 detailed, step-by-step formulas for dozens of versatile rye- and wheat-based sourdough breads, numerous breads made with yeasted pre-ferments, simple straight dough loaves, and dozens of variations. Visionary baker Chad Robertson unveils what's next in bread, drawing on a decade of innovation in grain farming, flour milling, and fermentation with all-new ground-breaking formulas and techniques for making his most nutrient-rich and sublime loaves, rolls, and more—plus recipes for nourishing meals that showcase them. "The most rewarding thing about making bread is that the process of learning never ends. Every day is a new study . . . the possibilities are infinite."—from the Introduction More than a decade ago, Chad Robertson's country levain recipe taught a generation of bread bakers to replicate the creamy crumb, crackly crust, and unparalleled flavor of his world-famous Tartine bread. His was the recipe that launched hundreds of thousands of sourdough starters and attracted a stream of understudies to Tartine from across the globe. Now, in Bread Book, Robertson and Tartine's director of bread, Jennifer Latham, explain how high-quality, sustainable, locally sourced grain and flours respond to hydration and fermentation to make great bread even better. Experienced bakers and novices will find Robertson's and Latham's primers on grain, flour, sourdough starter, leaven, discard starter, and factoring dough formulas refreshingly easy to understand and use. With sixteen brilliant formulas for naturally leavened doughs—including country bread (now reengineered), rustic baguettes, flatbreads, rolls, pizza, and vegan and gluten-free loaves, plus tortillas, crackers, and fermented pasta made with discarded sourdough starter—Bread Book is the wild-yeast baker's flight plan for a voyage into the future of exceptional bread.

In this James Beard Award-winning cookbook, George Greenstein reveals 125 recipes for the yeasted and quick breads that have been handed down through his family by three generations of bakers—the breads that made his bakery so well-loved for so many years. For more than twenty years, Greenstein owned and operated a Long Island bakery that produced a wide variety of baked goods, from many different ethnic traditions—focaccia and Irish soda bread, Bavarian pumpernickel and naan—including many from his own culture, such as Jewish corn bread, challah, and bagels. Now that most neighborhood bakeries like Greenstein's are long since closed, this classic collection not only teaches bakers everywhere how to make those delicious, classic breads, but it also preserves authentic versions of the recipes for all to enjoy. With the same helpful features that made this a cherished cookbook upon its original publication—separate instructions for mixing each recipe by hand, food processor, and stand mixer; tips for baking a week's worth of bread in as few as two hours; invaluable baker's secrets; and a very approachable style throughout—this revised edition also includes twelve new recipes to satisfy both old fans and new. So bring the spirit of that great old bakery back to life right in your very own kitchen, filling every room of your house with the wonderful aroma of freshly baked bread. And rest assured you'll bake with ease and success every time, thanks to George and his long-learned, very happily shared SECRETS OF A JEWISH BAKER.
