Creative Interventions for Traumatized Children. Liana Lowenstein, MSW

[www.lianalowenstein.com](http://www.lianalowenstein.com). Creative activities, presented within the context of an empathically attuned therapeutic relationship, engage children and enhance the effectiveness of trauma treatment. Developmentally appropriate and engaging activities motivate children to participate in treatment, facilitate skill building, and lead to a greater sense of enjoyment in the therapeutic process.

Creative Interventions for Traumatized Children

and other methods of stress reduction are also used with children who have experienced traumatic events (Murdock, 2013; Willard, 2010). Art, music, and dance/movement therapies and other creative interventions such as play have sometimes been incorrectly labeled as nonverbal therapies.
