Mastering(tm) A&P not included. Students, if Mastering A&P is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. Mastering A&P should only be purchased when required by an instructor. Instructors, contact your Pearson rep for more information. Mastering A&P is an online homework, tutorial, and assessment program designed to engage students and improve results. Instructors ensure that students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics(tm). Students can further master concepts after class through assignments that provide hints and answer-specific feedback. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Now in its Tenth Edition, Essentials of Human Anatomy & Physiology continues to set the standard for short-course A&P texts. Its dramatically updated art program, more streamlined presentation of material, and integration of chapter objectives will help you better visualize and understand the structure and function of the human body. New information on hot topics like the HPV Vaccine, Infantile Polycystic Kidney disease, and Sudden Infant Death Syndrome (SIDS) draws students into the material.

Designed for the one-semester anatomy and physiology course, Hole's Essentials of Human Anatomy and Physiology assumes no prior science knowledge and supports core topics with clinical applications, making difficult concepts relevant to students pursuing careers in the allied health field. The learn, practice, and access system is used throughout the textbook and digital. "Learning" Outcomes at the beginning of each chapter set the stage for what students will learn, "Practice" questions at the end of each major section help check their recall on what they just read, and "Assess" end of chapter resources help students confirm their accurate recall of what they just learned and practiced. The learn, practice, and assess system is highly effective in providing students with a solid understanding of the important concepts in anatomy and physiology.

This full-color manual is designed for students with minimal backgrounds in science who are pursuing careers in allied health fields. Designed to support the thirteenth edition of Hole's Essentials of Human A&P by Shier, Butler, and Lewis, this manual contains 49 laboratory exercises and reports, which are integrated closely to the textbook. Exercises are planned to illustrate and review the anatomical and physiological facts and principles presented in the text and to help students investigate some of these ideas in greater detail.

Designed for the one-semester anatomy and physiology course, Hole's Essentials of Human Anatomy and Physiology assumes no prior science knowledge and supports core topics with clinical applications, making difficult concepts relevant to students pursuing careers in the allied health field. The unparalleled teaching system is highly effective in providing students with a solid understanding of the important concepts in anatomy and physiology.
