One important element of FAO's work is building the capacity of food control personnel, including government authorities and food industry personnel carrying out food quality and safety assurance programmes. Such programmes should include specific food risk control procedures such as the Hazard Analysis and Critical Control Point (HACCP) system. FAO has prepared this manual in an effort to harmonize the approach to training in the HACCP system based on the already harmonized texts and guidelines of the Codex Alimentarius Commission. The manual is structured to provide essential information in a standardized, logical and systematic manner while adhering to effective teaching and learning strategies. Also published in English, Russian and Spanish.

This book is based on the FDA Food Code and will teach the food service manager and employees every aspect of food safety, HACCP & Sanitation from purchasing and receiving food to properly washing the dishes. They will learn time and temperature abuses, cross-contamination, personal hygiene practices, biological, chemical and physical hazards; proper cleaning and sanitizing; waste and pest management; and the basic principles of HACCP (Hazard Analysis Critical Control Points). Explain what safe food is and how to provide it. Bacteria, viruses, fungi, and parasites, various food-borne illnesses, safe food handling techniques, Purchasing and receiving food, storage, preparation and serving, sanitary equipment and facilities, cleaning and sanitizing of equipment and facilities, pest management program, accident prevention program, crisis management, food safety and sanitation laws. The companion CD ROM contains all the forms and posters needed to establish your HACCP and food safety program. The companion CD-ROM is included with the print version of this book; however is not available for download with the electronic version. It may be obtained separately by contacting Atlantic
