The Gilera Nexus 500 Maxi scooter helps me to understand what Gordon meant. Gilera promotes this beefy 460cc urban warrior as "a scooter with the soul of a motorcycle". My initial reaction was to dismiss it as silly. I ride sports motorcycles every day. They have fighter-jet acceleration, sumptuous steering geometry and handling that leaves me ...

Alan Seeley. Following on from the success of *The Motorcycle Book*, this extensively illustrated, all-color book provides comprehensive reference for all scooter owners and enthusiasts. From traditional to sports, through big-wheel and Super, all aspects of buying, riding, maintaining and tuning a scooter are included. Whether a beginner or experienced rider, the reader will find all the information they need to get on the road and stay on the road safely. There are detailed sections on how a scooter works and how to keep it running, with extensive maintenance and trouble-shooting chapters.

With fuel costs and parking charges it's no wonder the consumer is looking for less expensive forms of travel. This book is aimed at the rider who wants to do his or her own basic scooter maintenance and servicing without the need for in-depth mechanical knowledge, or a technical manual. It covers areas such as oil, brakes, tyres, transmission, electrics, etc, allowing the owner to address the most regularly serviced items without forking out for additional costs. Illustrated with full colour photographs throughout, and featuring clear, easy-to-follow instructions, this book is a must-have for scooter users.

From its origins the Italian battlefields of the Second World War, to movie roles as Audrey Hepburn's transport in *Roman Holiday* and Sting's stylish companion in *Quadrophenia* and on through the current vintage revival, the classic Italian motor scooter is an enduring design classic from the 20th century. Scootermania celebrates the superbly simple vehicles that are so symbolic of freedom, style and the modern world. Originating in the 1940s in Milan and Pontedera, Tuscany, the scooter became an enduring transport choice for young people and urban environments. Early chapters look at scooter racing and long-distance attempts, and their role as an anti-tank weapon in the French army. There is engaging coverage of place of scooters in popular culture from films, music and fashion including the way that a host of disparate groups has made the bikes their own - from the British Mods of the 1960s and 1980s to their role in American and Japanese fashion and in their Italian homeland. The evolution and design of classic models as the Vespa 150 GS and the Lambretta Li 150 Series 3 are covered while scooter stars such as Enrico Piaggio and Georges Monneret are celebrated in their own words. The book also includes a number of specially photographed features on modern scooter designers, collectors and artists.

After a hard-luck season and a stunning upset victory over Northern State, the State University basketball team finds out a selection committee has arbitrarily excluded State from National Tournament competition. Chip and Soapy, his best pal, don't give up as they battle to sustain the morale of their teammates and to change the committee's ruling.

The 10th Urban Environment Symposium (10UES) was held on 9-11 June 2010 in Gothenburg, Sweden. The UES series is run by Chalmers University of Technology within the Alliance for Global Sustainability (The AGS). Papers by leading experts are presented in sections on Sustainable Urban Development and Urban Planning; Air Quality and Human Health; Urban Waters; and Urban Soil Contamination and Treatment.

"This volume seeks to weave applications of the dynamic concept of resonance to ethnic studies. Resonance refers to the ever broadening, multidirectional effects of movement or action, a concept significant for many disciplines. The individual chapters exchange the concept of static "intertextuality" for that of interactive "resonance," which encourages consideration of the mutual and processual influences among readings, paradigms, and social engagement in cultural analysis. International scholars of literary and cultural studies, linguistics, history, politics, or ethno-environmental studies contribute their work in this volume. Each chapter examines a specific ethnic phenomenon in terms of relevant literature, lived experience and theoretical approaches, or historical intervention, relating the given case study to parameters of resonance. The book offers dialogic transnational interchange, a play of eclectic ethnic voices, inquiries, perspectives, and differences. The studies in this interdisciplinary volume show that - through resonant engagement with(in) and between works - literary production can both enhance and disturb cultural narratives of ethnicity"--
