Hydrotherapy - Wikipedia

Hydrotherapy can be fun and relaxing, helping to encourage normal movement whilst strengthening muscles and improving exercise tolerance, relaxing muscle spasm and relieving pressure from painful joints. The hydrostatic pressure from the water also helps to promote healing, boosts circulation and can reduce swelling around a joint.

Hydrotherapy treatment at Yorkshire Neurological ...

As the name suggests, hydrotherapy quite simply refers to techniques involving water for therapeutic purposes. This method is an important tool in physiotherapy, and a number of different and more specific techniques come under this umbrella term.
