Paper, as a primary artistic medium, is a significant material for art creations. Through folding, curving, cutting or gluing, a single sheet of paper can make infinite possibilities for two or three-dimensional objects. From decorative paintings to exquisite necklace, from delicate clothes to wonderful sculpture, paper makes the impossible possible. Paperists: Infinite Possibilities of Paper Art features extraordinary paper artists around the world and showcases their most brilliant works exploring every possibility made by paper. In this book, you will be amazed by what has been created out of paper and inspired by the expressive paper art.

In the Garden of Infinite Possibilities there are only 3 rules: Rule n.1: "There are infinite possibilities." Rule n.2: "Thoughts become things." Rule n.3: "NEVER forget the first two!" For the first time, a voyage spanning Quantum Physics, Personal Growth and Spirituality, through the eyes of a curious child, and a Master Teacher who knows the Infinite. Their journey to escape mind control and arrive to... an extraordinary revelation !

Infinite Possibilities offers new perspectives on the phenomenon of seriality in the medium of drawings and the visual arts. It includes drawings from the 1960s to the present by 29 artists from Japan, South America, the United States, and Europe. Whether looking at serial images in historical, political, mathematical, philosophical, or theoretical perspectives, Infinite Possibilities is a remarkable discourse on a fundamental aspect of contemporary artistic creativity. The artists included range from the emerging to the canonical; among them are Jennifer Bartlett, Jasper Johns, Ellsworth Kelly, Sol LeWitt, Robert Mangold, Gloria Ortiz-Hernandez, Richard Serra, and Tony Smith.

This beautiful origami art book is a collection of the best contemporary pieces from some of the worlds most renowned papercraft artists. Thanks to pioneering masters such as Dr. Robert J. Lang, origami has transcended its humble roots as a traditional Japanese papercraft to take its place among the global fine arts. In Folding Paper: The Infinite Possibilities of Origami, Dr. Lang and Asian art curator Meher McArthur chronicle origami's remarkable evolution and showcases the widespread applications of paper folding solutions in the fields of contemporary mathematics, engineering, design, and the international peace movement. Based around a groundbreaking museum show by the same name, Folding Paper features the work of more than forty leading origami artists from around the world. It traces the development of paper folding in both the East and the West, recognizing the global influences on this international art form. Now in the early twenty-first century, origami is a sophisticated fine art form consisting of many different styles, from representational to geometric, abstract, and even conceptual. It has become a symbol of peace, an inspiration for engineers, and a conduit for scientific advancement. Featured origami artists include: Brian Chan Erik Joisel Erik and Martin Demaine Tomoko Fuse Daniel Kwan Michael LaFosse Jeannine Moseley Akira Yoshizawa Combining Dr. Lang's and McArthur's illuminating narrative history with lavish color photographs of more than sixty breathtaking works from Joel Cooper's haunting Cyrus mask to Linda Tomoko Mihara's delicate Crane Cube to Eric Joisel's lifelike Pangolin model! Folding Paper is an enthralling introduction to the contemporary art of paper folding.

Examining recalled dreams with many others in a Social Dreaming Matrix leads to the transformation of the thinking embedded in the dreams. There are infinite meanings to a dream by regarding the dream as an unconscious product of cultural knowledge, not as an expression of the psyche exclusively, opening new possibilities of thinking.
