Depending on context or application it can be considered a valid common-sense observation or a misunderstanding of probability. This notion can lead to the gambler's fallacy when one becomes convinced that a particular outcome must come soon simply because it has not occurred recently. As invoked in everyday life, the "law"

That is to say, you'll expect to get heads 50% of the time. The misconception in the law comes from the convergence portion.

More hilarious, unbelievable-but-true stories from our nation's courts, from the author of *Disorder in the Court* and *Disorderly Conduct*. Charles M. Sevilla finds comic gems in court transcripts—and now brings readers a delightful, all-new collection. Starting with a chapter on the defendants (one of whom, when asked his marital status, replies after a long pause, "Adequate") and following with sections on lawyers, experts, witnesses, evidence, and even one called "Malaprops" (DA: The status of the boat has no relevance to this case at all. This is a total fishing expedition). Stories from Sevilla's previous books have become viral Internet sensations, priming readers for more legal disorder, such as: Clerk: Do you solemnly swear that the testimony you are about to give in the cause now pending before this court shall be the truth, the whole truth, and nothing but the truth, so help you God? Witness: Yes, I swear. I'll say anything but the truth, nothing but the truth.

What happens if Roe v. Wade is overturned? When can you legally use self-defense? How the hell does the Electoral College work, and who came up with it anyway? We hear about the law everywhere, from our social media feeds to 24/7 news coverage, and even heated debates with friends and family. But do the people we're listening to really understand the law, or how it works? The Law Says What? offers a crash course on some of the most bizarre, infuriating, and vitally important legal topics of today. You'll explore the reasons behind laws that affect your everyday life using real-world cases that might make your head spin. Your mind will be blown and your sides may hurt from laughing as you learn more about criminal law, civil law, contract law, property law, tort law, international law, and courtroom procedure than even those cable newscasters know. You'll discover:· Why the police don't actually have a legal duty to protect you· How marijuana is both legal and illegal at the same time· How you can be charged for murder without actually killing anyone· How someone can legally steal your land just by keeping it long enough· Why the government can confiscate your possessions without ever charging you for a crime Harvard Law School graduate and practicing attorney Maclen Stanley has already had all the boring laws so you don't have to, condensing the real-world legal cases into fascinating stories with valuable information. You'll feel like you're having a conversation

with a friend, rather than reading your mortgage disclosures. This book will help you make better decisions and have deeper conversations about the most important laws that affect you, your family, and your friends on a daily basis. And along the way, you'll see that, in practice, the law—much like the human beings that create and enforce it—is actually pretty weird.

"Jenny made me laugh so hard I feared for my safety! I think that's how she was able to get past my defenses and make me feel more okay about myself." —Allie Brosh, author of *Hyperbole and a Half* For fans of David Sedaris, Tina Fey, and Mindy Kaling—the new book from Jenny Lawson, author of the #1 New York Times bestseller *LET'S PRETEND THIS NEVER HAPPENED...* In *LET'S PRETEND THIS NEVER HAPPENED*, Jenny Lawson baffled readers with stories about growing up the daughter of a taxidermist. In her new book, *FURIOUSLY HAPPY*, Jenny explores her lifelong battle with mental illness. A hysterical, ridiculous book about crippling depression and anxiety? That sounds like a terrible idea. And terrible ideas are what Jenny does best. According to Jenny: "Some people might think that being 'furiously happy' is just an excuse to be stupid and irresponsible and invite a herd of kangaroos over to your house without telling your husband first because you suspect he would say no since he's never particularly liked kangaroos.

And that would be ridiculous because no one would invite a herd of kangaroos into their house. Two is the limit. I speak from personal experience. My husband says that none is the new limit. I say he should have been clearer about that before I rented all those kangaroos."

"Most of my favorite people are dangerously fucked-up but you'd never guess because we've learned to bare it so honestly that it becomes the new normal. Like John Hughes wrote in *The Breakfast Club*, 'We're all pretty bizarre. Some of us are just better at hiding it.' Except go back and cross out the word 'hiding.'" Jenny's first book, *LET'S PRETEND THIS NEVER HAPPENED*, was ostensibly about family, but deep down it was about celebrating your own weirdness. *FURIOUSLY HAPPY* is a book about mental illness, but under the surface it's about embracing joy in fantastic and outrageous ways—and who doesn't need a bit more of that?
