This handy index eliminates the need to search through multiple back-of-the-book indexes to find where a subject is addressed. The comprehensive A-to-Z listing will help users find important handbook content in volumes where they may not have thought to look. A composite of all the index entries contained in the entire current 20-volume set of the ASM Handbooks, including the revised 1998 edition of Volume 7, Powder Metal Technologies and Applications. Also included are the index entries for the four-volume ASM Engineered Materials Handbook. In addition, the index covers the seven volumes of the Ninth Edition Metals Handbook that have been replaced with updated ASM Handbook volumes.

Advertising expenditure data across ten media: consumer magazines, Sunday magazines, newspapers, outdoor, network television, spot television, syndicated television, cable television, network radio, and national spot radio. Lists brands alphabetically and shows total ten media expenditures, media used, parent company and PIB classification for each brand. Also included in this report are industry class totals and rankings of the top 100 companies of the ten media.
