formally proposed by Benjamin Bloom in 1968. Mastery learning maintains that students must achieve a level of mastery in prerequisite knowledge before moving forward to learn subsequent information. If a student does not achieve mastery on the test, they are given additional support in learning and reviewing the information and then tested again. This cycle continues until the learner accomplishes mastery, and they m

Mastery learning - Wikipedia

Mastering maths concepts like place value in the early years is not just key to success in the classroom. It prepares learners for a lifetime of deep mathematical understanding by giving them invaluable real-world tools like resilience and problem-solving ability. And a confident problem solver in maths is a confident problem solver in life.

The Dalcroze method, also known as Dalcroze Eurhythmics, is another approach used by educators to teach musical concepts. Emile Jaques-Dalcroze, a Swiss educator, developed the method to teach rhythm, structure, and musical expression through music and movement. Eurhythmics begins with ear training, or solfege, to develop the inner musical ear.
