This book explains clearly the nature of colon polyps and their relationship with colorectal cancer, which is among the three most common cancers in both men and women. Up-to-date information is provided on anatomy, pathology, types of polyp and their treatment, and the performance of colonoscopy. Particular attention is devoted to the risk factors for development of colorectal cancer, with detailed guidance on its prevention and early diagnosis and treatment. While the book is primarily intended for medical specialists and students, a deliberate and consistent effort has been made to use plain language that will enable other interested persons, including patients, to understand all aspects of the subject.

Significantly updated to cover the latest technological developments and include latest techniques and practices.

Introduce your students to strategic management with the market-leading text that sets the standard for the course area. Written by respected scholars who have taught strategic management at all educational levels, Hitt, Ireland, and Hoskisson's latest edition provides an intellectually rich, yet thoroughly practical, analysis of strategic management. The classic industrial organization model is combined with a resource-based view of the firm to provide students with a complete understanding of how today's businesses establish competitive advantages and create value for stakeholders. Cutting-edge research is presented with a strong global focus, featuring more than 500 emerging and established companies. All-new opening cases introduce chapter concepts and mini cases offer new contexts of study. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Fundamentals of High Resolution Lung CT presents a simple and concise approach to the HRCT diagnosis of diffuse lung disease. It is simple and straightforward and covers similar material presented in "High-Resolution CT of the Lung", in a brief and approachable format. The chapters and illustrations are based upon, and demonstrate, the fundamental observations, rules, shortcuts, thought patterns and differential diagnosis used in every day clinical practice. This content is intended to review your basic and practical understanding of the lung diseases commonly assessed using HRCT.

This text explains how firms achieve strategic competitiveness, emphasising integration of resources and capabilities to obtain a sustained competitive advantage. The text integrates the resource-based view of the firm with the more traditional model.

Looks at the reconstructed exhibit of degenerate art censored by the Nazis in 1937

The thoroughly revised Fourth Edition of this widely acclaimed volume explains how to use the newest high-resolution CT technology to detect and diagnose lung abnormalities. Still the only complete text on the topic, this compact, affordable reference is written by the foremost experts and provides cutting-edge technical and clinical information. It includes state-of-the-art HRCT scans of interstitial lung diseases and differential diagnosis tables summarizing the most helpful diagnostic features of interstitial and airspace diseases. This edition includes full-color illustrations of histologic findings in lung disease, correlated with HRCT manifestations. Also included are updated HRCT images obtained on multidetector CT scanners with many coronal and sagittal reformations. Two new chapters on the idiopathic interstitial pneumonias detail the differential diagnosis, pathophysiology, histology, clinical manifestations, and HRCT features of these entities. A companion Website will offer the fully searchable text plus an image bank containing all illustrations from the text.

Covering key topics in the field such as technological innovation, human-centered sustainable engineering and manufacturing, and manufacture at a global scale in a virtual world, this book addresses both advanced techniques and industrial applications of key research in interactive design and manufacturing. Featuring the full papers presented at the 2014 Joint Conference on Mechanical Design Engineering and Advanced Manufacturing, which took place in June 2014 in Toulouse, France, it presents recent research and industrial success stories related to implementing interactive design and manufacturing solutions.
