A half a million babies are born premature each year, yet there are next to no picture books available about premies. That's why "My Baby Sister is a Premie" by Neonatal Intensive Care Unit (NICU) nurse Diana M. Amadeo is so special. One family's story is told through the eyes of Sarah, a young girl of about seven or eight.

Side note (can't believe my baby sister @sydneyraeface had baby Brookie at this point in her pregnancy. Makes me so proud and even more amazed at what a strong woman my sister is and how brave she was for her sweet preemie baby girl. God chose her to be Brookies mama for a reason.

Having an infant in the Neonatal Intensive Care Unit is full of a flurry of emotions overshadowed by anxiety. An admission to the NICU is not anticipated and therefore can be a very trying experience. Explaining the hospitalization of the baby to the other children in your home can be challenging. The baby's siblings may be too young to understand, fearful of hospitals, or even upset that you are spending more time at the hospital than at home. This short book can serve as a light introduction to the NICU and foster further discussion with your other children or young relatives. It is best read together, ideally before a visit to the NICU. addition to visiting the hospital, establish some routines and alone time with your children at home to help ease the transition as your new baby grows and heals in the intensive care unit.

It's pretty scary to see a new sibling wrapped in a glass box instead of a soft blanket. In this gentle story about a baby who arrives too soon, Sarah can see that Mommy and Daddy are worried, and that tiny Amy is sick. But her parents help her to see that God is with the family no matter what, even its newest, littest member. A special section at the end written by R. Scott Stehouwer, Ph. D., professor of psychology at Calvin College and clinical psychologist, provides suggestions for parents and caregivers of hurting children.

A brief child-friendly introduction to the

Having a premature baby is a unique experience for any family. Older siblings feel the toll as well. They have an expectation of their newest family member coming home soon, but in many cases the baby ends up in the Neonatal Intensive Care Unit (NICU) for days, weeks or even months. Their emotions can range from missing the parents and wanting the baby to be home, to feeling jealous and confused about this new person in their lives. This children's book is the true story of a premie girl in her first year of life, as narrated by her older sister.

A little boy describes how the hospital staff provided care for his premature baby brother.

Updated to incorporate the latest neonatology advances, a comprehensive guide shares advice on everything from risk factors and progress monitoring to homecoming preparations and development prospects.

Having a new sibling in the NICU can be frightening. Disrupted routines. Strange tubes and machines. This coloring book is meant to help explain why the baby has to stay in the hospital for now and what all those big machines are doing.

Understanding the situation can make it less frightening.

Jacob learns that adults can be scared, too, when his new sibling is born prematurely. While Jacob has his grandma and his faithful teddy bear, Bob, with him at home while his parents are at the hospital, he still feels alone. The book portrays the range of emotions older siblings often have about a new baby, including fear, anger, and resentment, along with the added challenges of the premie's health concerns and parents' frequent absences.
