Sounds like Nat Geo Kids readers! \_\_\_\_ Try this! Sometimes we don't realise how much plastic we actually get through each week. A useful activity to try with your family or school is to collect all the plastic your house or class discards in one week. Then at the end of the week lay it all out and count it! Take pictures too.

A total solar eclipse begins as a barely perceptible nibble out of the sun. Over the next hour or so, the darkness spreads and eventually consumes the solar disk, turning day to night.

*Solar eclipses, facts and information - National Geographic*

On the night of a "supermoon," the moon appears larger and brighter than any other time—and they're surprisingly rare.
