Joe Pine author of "The Experience Economy" discusses customer experience *Progression of Economic Value Pine And Gilmore Experience Economy*
The term "Experience Economy" was first used in a 1998 article by B. Joseph Pine II and James H. Gilmore describing the experience economy as the next economy following the agrarian economy, the industrial economy, and the most recent service economy. The concept had been previously researched by many authors. Pine and Gilmore argue that businesses must orchestrate memorable events for their customers, and that memory itself becomes the product: the "experience". More advanced experience busines

Discussing The Experience Economy With Joe Pine | XM Institute
The experience economy dominates the philosophy of tourism: it permeates how we engage with tourism and how we consume tourism. The literature tells us that tourists want to encounter a whole range of experiences such as holidays abroad, cultural events, fine dining or cutting-edge leisure activities (Pine and Gilmore, 2011).
