### Plunkett's Wireless, Wi-Fi, Rfid & Cellular Industry ...

RFID (Radio Frequency Identification) is the wireless technology used most often for inventory tracking and supply chain applications. Passive RFID tags on products and boxes contain logistics information that can only be read with a special handheld reader at a range of up to 100 meters. RFID typically only supports one-way communication.

### NFC, Bluetooth and RFID: Unraveling the Wireless ...

Our Verdict. Super Boost's Wireless-N Wi-Fi Repeater is from another, slower, era of wireless data and fails to measure up on performance, range and compatibility with today's Wi-Fi products.
