In the no-holds-barred tradition that has won him so many fans across the nation and around the world, best-selling author and strategist Ralph Peters confronts the crucial security issues of our time--and the troubled times to come.

historical analysis, blood can be seen through its literal and metaphorical uses as determining, sometimes even defining Western culture, politics, and social practices and their wide-ranging incarnations in nationalism, capitalism, and law. Engaging with a variety of sources, Anidjar explores the presence and the absence, the making and unmaking of blood in philosophy and medicine, law and literature, and economic and political thought from ancient Greece to medieval Spain, from the Bible to Shakespeare and Melville. The prevalence of blood in the social, juridical, and political organization of the modern West signals that we do not live in a secular age into which religion could return. Flowing across multiple boundaries, infusing them with violent precepts that we must address, blood undoes the presumed oppositions between religion and politics, economy and theology, and kinship and race. It demonstrates that what we think of as modern is in fact imbued with Christianity. Christianity, Blood fiercely argues, must be reconsidered beyond the boundaries of religion alone.

Endless War features controversial strategist Ralph Peters at his most provocative and popular, raising perceptive, often shocking questions others fear to ask. Endless War engages the toughest security issues of our time, including: Does our Afghan war make sense? Can we win? Do we even have a strategy? ; Has flawed military planning left our troops as virtual hostages in combat zones? ; Can Israel

survive? What would an Iranian nuclear arsenal mean for the world? ; Is Islam a "religion of peace," or has the war between Islam and Western civilization continued virtually without interruption for almost fourteen centuries? ; Why doesn't the greatest superpower in history win more often? Are we our own worst enemies? ; Have we lost our sense of warfare's reality? Why don't we fight to win? ; Do terrorist prisoners really deserve better treatment than American citizens? ; What's the true price of striking serious history courses from our schools? ; Who does deeper damage to the United States, our violent enemies or arrogant ruling elite? In powerful prose combining clarity with passion, Ralph Peters continues to shape our country's military and strategic thought, while standing up for our troops and American values. No book on strategy or foreign affairs this year will be fiercer or more brutally honest. As ever more dark clouds gather over the world, this is a voice we need!--Publisher description.

Now available in paperback In the no-holds-barred tradition that has won him so many fans across the nation and around the world, best-selling author and strategist Ralph Peters confronts the crucial security issues of our time--and the troubled times to come. With his trademark clarity and force, Peters argues that we have left behind the Age of Ideologies to enter a violent period in which ethnicity and religion--blood and faith--will continue to be the source of ferocious rebellions, genocide, and global terrorism. His compelling vision spares neither our foreign policy nor our domestic follies as he ruthlessly outlines what it will take to protect our country against this new breed of enemies. Russia is back as an aggressive imperialist power. We have forgotten what it takes to win wars, leading to tragic, unnecessary failures. Too many Americans still refuse to take our enemies seriously, even though terrorists

and foreign leaders are bent on inflicting apocalyptic destruction on us. hose enemies will use nuclear weapons, if allowed to possess them. Religious wars are impossible to prevent--because our enemies desire them. The Middle East is headed for greater chaos, and Israel may not survive. Despite these challenges, the United States will remain the world's most successful and greatest power--but the cost will be determined by our willingness to face a new century's brutal realities. Wars of Blood and Faith continues the ever popular series of work by Ralph Peters on strategy, conflict, and the military published by Stackpole Books--titles that have not only excited and informed a wide range of readers, but have profoundly influenced our national security.

Drawing on his global experiences from Africa to Iraq, author Ralph Peters attacks today's crucial issues of our time head-on, with the clear eye and blunt voice that has won him a devoted following: Is Iraq worth it? What's the truth behind the politics? Are our defense dollars buying a strong military--or the wrong military? Are we missing great opportunities elsewhere while hypnotized by the Middle East? Must we accept that Islam itself is the problem? Will we face a war with China? What would such a war mean? Can Washington learn from its mistakes? These are just a few of the controversial issues Peters takes on in a series of body blows to the status quo. Famed as the most original strategist of our time, Ralph Peters builds on the critical and commercial success of previous books, Wars of Blood and Faith(978-0-8117-0274-4) andNew Glory(1-59523-011-4), to offer a stunningly fresh vision for our military, our country, and the world.

Richard Bonney's illuminating and controversial new book takes as its subject the Christian/Muslim Clash of Civilizations thesis, which underpins contemporary US foreign policy. It gets beyond the stereotypes and demonstrates - through careful analysis of both sides of the debate - how the US response to 9/11 and the problematic interventions in Afghanistan and Iraq have suffered as a result of this neo-conservative influence on American foreign policy since 1945.

This book discusses the rapid erosion of social pluralism and the concomitant "religious cleaning" of religious minorities in the Middle East. It focuses on five crucial years between the "Arab Spring" uprisings of 2011 and the U.S. government's genocide determination in 2016 regarding religious minorities in the Middle East.
