politics, society, economics and culture.

This fourth volume in a series of state-of-the-art reviews of religious studies programs in Canadian provinces traces the formative role of religion in the establishment of the universities in Manitoba and Saskatchewan. Despite strong roots in denominational colleges, with their confessionally oriented study of religion, by the 1960s, "there was a diffused sense in the culture of the need for a religious perspective, and even a quest for

religious experience, but at the same time there was a growing dissatisfaction with the conventional ways of being religious.” This new perspective, coupled with rising enrollments and increased funding, both a result of the explosion of post-secondary education in Canada, was reflected in a shift away from the theological study of religion to an academic one. New Religious Studies departments that reflected a “science of religion” philosophy were founded, and faculty hired and curricula developed to meet these broader concerns. Current issues, such as graduate studies, research and

publication, and faculty hiring are also treated, as are the Bible colleges and theological seminaries which play such an important role in both provinces. Assessments of religious studies research programs and their relation to the general community situate the programs in a wider context and indicate future directions. This solid, sensitively written volume adds considerably to our knowledge of religious studies in Canada and illustrates how yet another region is meeting the needs of a pluralistic society by providing new contexts for the study of religion.

approach that impoverishes religious studies. Rather, this book introduces the diverse religious experience of Africans, Native Americans, and the indigenous peoples of Australia, providing a comprehensive introduction to the study of religion and broadening the horizons of religious studies students.

The book is a study on an issue which has a massive impact upon The United Kingdom. In this short book Evan briefly looks at how immigration has impacted the UK. Discussion around the issue of immigration has descended

into name calling; if anyone has wanted to raise their concerns they have been described as racist, narrow minded or bigoted. This has led to a fear amongst the general population and some politicians, which in turn has closed down any genuine open debate regarding people's concerns about the issue of open door mass immigration. His desire is to start a dialogue which can lead onto a genuine and frank debate around the problems mass immigration has brought to the UK, and in time lead to proper controls on who enters and lives in this country.

relation to current debates about religious education in the UK and internationally, drawing attention to current issues of concern. Carefully selected examples explore the key themes in religious education that allow us to consider how things were, how they are now and the future for the field of study. Split into parts: empirical research; the interpretive approach to religious education pedagogy; religious education and plurality and human rights and international policy developments, Robert Jackson also provides an overview of the text in the form of a general introduction, and also

reveals, through an analysis of theory and practice, that religious education is resting on historic and persistent assumptions about both religion and education. Drawing on work from Arendt and Weil, new ideas emerge regarding religious education's constituent elements: education and religion. It offers a new and timely proposal for religious education and argues for a broader understanding of religion, bringing a fresh contribution to current discussions regarding the relationship between religion and education in the public sphere. Some practical considerations emerging from theory

developing through the earlier parts of the book are presented in the final section, including the teacher's role and what should guide religious education curriculum. At a time when there is raised interest in the role of religion in the public sphere internationally, this book aims to contribute something new, both theoretically and practically, to discussions regarding the role of religion in education is and relevant to educational contexts worldwide. This book will be vital reading for academics and researchers in the fields of religion and religious studies, education, philosophy of
