Words from the achiever. “When I was in high school, there was a book by James MacGregor Burns, a wonderful historian, called *The Lion and the Fox*, about FDR. And it was about his personality, his character, his early years in Hyde Park, his polio experience. And I remember that so vividly as the first real, live history book that I love so much. And I later met him and have gotten to know him as a colleague, and he’s about 30 years older than I am, and I couldn’t wait to tell him ...

"A brilliant full-length portrait of Franklin Roosevelt the politician"—the first in an award-winning two-volume biography (The Christian Science Monitor). Franklin Delano Roosevelt was the longest serving president in United States history, reshaping the country during the crises of the Great Depression and World War II. But before his ascension to the presidency, FDR laid the groundwork for his unprecedented run with decades of canny political maneuvering and steady consolidation of power. In this remarkable New York Times–bestselling biography, Pulitzer Prize–winning historian James MacGregor Burns traces FDR's rise and the peculiar blend of strength and cunning that made him such a uniquely transformative figure. Weaving together lively narrative and impressive scholarship, Burns reconstructs his youth and education at Groton and Harvard, his relationships with his cousins Theodore and Eleanor, his immersion in New York State politics, and his rise to national prominence, all the way through his first two terms as president, which saw the historic New Deal take hold and the drumbeats of World War II begin. Originally published in 1956, The Lion and the Fox was among the first studies of Roosevelt—and it remains a landmark record of his ambitions, talents, and flaws. Hailed by the New York Times as "a sensitive, shrewd, and challenging book" and by Newsweek as "a case study unmatched in American political writings," Burns's stunning achievement is the life story of a fascinating political figure.

A Pulitzer Prize–winning historian's dramatic biography of Franklin Delano Roosevelt, US president during the Depression and WWII. Franklin Delano Roosevelt was the longest serving president in US history, reshaping the country during the crises of the Great Depression and World War II. James MacGregor Burns's magisterial two-volume biography tells the complete life story of the fascinating political figure who instituted the New Deal. Roosevelt: The Lion and the Fox (1882-1940): Before his ascension to the presidency, FDR laid the groundwork for his unprecedented run with decades of canny political maneuvering and steady consolidation of power. Hailed by the New York Times as "a sensitive, shrewd, and challenging book" and by Newsweek as "a case study unmatched in American political writings," The Lion and the Fox details Roosevelt's youth and education, his rise to national prominence, all the way through his first two terms as president. Roosevelt: The Soldier of Freedom (1940-1945): The Pulitzer Prize and National Book Award–winning history of FDR's final years examines the president's skillful wartime leadership as well as his vision for postwar peace. Acclaimed by William Shirer as "the definitive book on Roosevelt in the war years," and by bestselling author Barbara Tuchman as "engrossing, informative, endlessly readable," The Soldier of Freedom is a moving profile of a leader gifted with rare political talent in an era of extraordinary challenges.

The “engrossing” Pulitzer Prize and National Book Award–winning history of FDR’s final years (Barbara Tuchman). The second entry in James Macgregor Burns’s definitive two-volume biography of Franklin Delano Roosevelt begins with the president’s precedent-breaking third term election in 1940, just as Americans were beginning to face the likelihood of war. Here, Burns examines Roosevelt’s skillful wartime leadership as well as his vision for post-war peace. Hailed by William Shirer as “the definitive book on Roosevelt in the war years,” and by bestselling author Barbara Tuchman as “engrossing, informative, endlessly readable,” *The Soldier of Freedom* is a moving profile of a leader gifted with rare political talent in an era of extraordinary challenges, sacrifices, heroism, and hardship.

From renowned political theorist James MacGregor Burns, an incisive critique of the overreaching power of an ideological Supreme Court For decades, Pulitzer Prize-winner James MacGregor Burns has been one of the great masters of the study of power and leadership in America. In *Packing the Court*, he turns his eye to the U.S. Supreme Court, an institution that he believes has become more powerful, and more partisan, than the founding fathers ever intended. In a compelling and provocative narrative, Burns reveals how the Supreme Court has served as a reactionary force in American politics at critical moments throughout the nation's history, and concludes with a bold proposal to rein in the court's power.

Examining the development of the process of presidential selection from the founding of the republic to the present day, James Ceaser contends that many of the major purposes of the selection system as it was formerly understood have been ignored by current reformers and modern scholars. In an attempt to reverse this trend, Professor Ceaser discusses the theories of selection offered by leading American statesmen from the Founders and Thomas Jefferson to Martin Van Buren and Woodrow Wilson. From these theories he identifies a set of criteria for a sound selection system that he then uses to analyze and evaluate the recent changes in the selection process. Five normative functions of a presidential selection system comprise the author's criteria: it should minimize the harmful effects of ambitious contenders for the office, promote responsible executive leadership and power, help secure an able president, ensure a legitimate accession, and provide for an appropriate amount of choice and change. Professor Ceaser finds that the present system is characterized by weak parties and candidate-centered campaigns that lead to the problems of "image" politics and demagogic leadership appeals. He therefore argues for a more republican selection system in which political parties would be strengthened to serve as a restraining force on popular authority, public opinion, and individual aspirations for executive power.

A masterful, concise biography of Theodore Roosevelt, America's first modern president New York State Assemblyman, Assistant Secretary of the Navy, Governor of New York, Vice President and, at forty-two, the youngest President ever--in his own words, Theodore Roosevelt "rose like a rocket." In *Lion in the White House*, historian Aida Donald masterfully chronicles Roosevelt's life and his presidency. TR's accomplishments in office were immense. Believing that the emerging aristocracy of wealth represented a genuine threat to democracy, TR broke trusts to curb the rapacity of big business. He built the Panama Canal and engaged the country in world affairs. And he won the Nobel Peace Prize--the first sitting president ever so honored. Throughout his public career, TR fought valiantly to steer the GOP back to its noblest ideals as embodied by Abraham Lincoln. Alas, his hopes for his party were quashed by the GOP's strong rightward turn in the years after he left office. But his vision for America lives on. In lapidary prose, this concise biography recounts the courageous life of one of the greatest leaders our nation has ever known.
