## **Accounting & Finance ...**

"A shared service is a collaborative strategy in which a subset of existing business functions are concentrated into a new, semi-autonomous business unit that has a management structure designed to promote efficiency, value generation, cost savings and improved service for internal customers of the parent organisation, like a business competing in the open market" (Bergeron, 2003).

The shared services model must be flexible in migrating work into – and out of – the shared services organization, while keeping costs under control and employees engaged and productive. This will be a difficult balancing act, but shared services organizations that succeed will deliver outside value via the shared services model.
