In this, the original book about the curious monkey, George is taken from the jungle by the man in the yellow hat to live in a new home, but—oh, what happened! This book is the first work that comprehensively presents the accounts of Lia Eden, a former flower arranger who claims to have received divine messages from the Archangel Gabriel and founded the divine Eden Kingdom in her house in Jakarta. This book places Lia Eden's prophetic trajectory in the context of diverse Indonesian spiritual and religious traditions, by which hundreds of others also claimed to have been commanded by God to lead people and to establish religious groups. This book offers a fresh approach towards the rich Indonesian religious and spiritual traditions with particular attention to the accounts of the emergence of indigenous prophets who founded some popular religions. It presents the history of prophetic tradition which remains alive in Indonesian society from the colonial to reform period. It also explores the ways in which these prophets rebelled against two hegemonies: colonial power in the past and Islamic orthodoxy in the present. The discussion of this book focuses on Lia Eden including her biography, claims to prophethood and divinity, the development of her group Eden Kingdom, her challenge to Islamic orthodoxy under the banner of the MUI (Indonesian Ulama Council), her persecution by radical groups, her experiences in court trials and imprisonment, and public responses to her emergence. The discussion also covers other themes currently drawing public attention in Indonesia, such as pluralism, religious freedom, tolerance, discrimination against minorities, and secularisation.

The 7th Edition of Global Marketing Management prepares students to become effective managers overseeing global marketing activities in an increasingly competitive environment. The text's guiding principle, as laid out concisely and methodically by authors Kotabe and Helsen, is that the realities of international marketing are more "multilateral." Suitable for all business majors, the text encourages students to learn how marketing managers work across business functions for effective corporate performance on a global basis and achievement of overall corporate goals. Global Marketing Management brings timely coverage in various economic and financial as well as marketing issues that arise from the acutely recessionary market environment.
