Organizational Excellence is a final product composed of two basic elements alloyed prudently by the members/stakeholders of an organization. These two basic elements are Strategy and Culture . When we talk of quality management practices, we have to pursue quality as a strategy and also quality as a culture . Quality as strategy is a conscious and deliberate search for a plan of action that will develop an organization's distinctive competence and compound it. Quality as culture is the amalgamation of behavior patterns of all the stakeholders in terms of beliefs, values, attitudes etc. In other words, quality management is the epicenter of the competitive organizations of the future in which strategy is the scientific pursuits and culture is the artistic artifacts. Numerous authors have put forth their logical thoughts, have articulated their concepts and have validated their hypothesis relating to quality management.
