employment no longer works
in a business environment
defined by continuous
change, but neither does a
system in which every
employee acts like a free

thinking of employees as
either family or as free
agents. Think of them
instead as allies. As a
manager you want your
employees to help transform
the company for the future.
And your employees want the
company to help transform
their careers for the long

Investment and mutual benefit. Sadly, trust in the business world is hovering at an all-time low. We can rebuild that lost trust with straight talk that recognizes the realities of the modern economy. So, paradoxically, the alliance begins with managers acknowledging that great employees might leave the company, and with employees being honest about their own career aspirations. By putting this new alliance at the heart of your talent management strategy, you'll not only bring back trust, you'll be able to recruit and retain the entrepreneurial individuals

you need to adapt to a fast-changing world. These individuals, flexible, creative, and with a bias toward action, thrive when they're on a specific "tour of duty"—when they have a mission that's mutually beneficial to employee and company that can be completed in a realistic period of time. Coauthored by the founder of LinkedIn, this bold but practical guide for managers and executives will give you the tools you need to recruit, manage, and retain the kind of employees who will make your company thrive in today's world of constant innovation and fast-paced

that listens to its employees and is open to the outside world; to build a rich career thanks to evolutionary missions; take advantage of the professional network of current and former employees. Today, we no longer work as we did fifty years ago. Employees no longer spend their entire career in the same company and they are also increasingly vulnerable because of short-term economic issues. However, the status of self-employed worker is not the solution, given its precariousness. To maintain employment, a new type of relationship must be

and actions into results
Imagine 2 scenarios. In the
first one you have just
finished reading The
Alliance. It was a great
book and you remember that
it mentioned a lot of smart
things. But you can't
remember much of it now as
you close the book. In the

second scenario you have just finished the same book. The difference now is that you have a plan for how to implement this new knowledge to improve your life. Most people will find themselves in scenario one. We believe that reading is an investment. You spend time with a book because you hope that it will make you happier, healthier, wealthier or smarter. But simply just reading a great book is not enough. You have to take action! This workbook helps you do just that and makes it easier for you to make real changes from the books you read.

good? Entrepreneur and Samasource founder Leila Janah has the solution—give work, not aid. “An audacious, inspiring, and practical book. Leila shows how it’s possible to build a successful business that lifts people out of poverty—not by giving them money but by giving them work. It’s required reading for anyone who’s passionate about solving real problems.” —Adam Grant, author of Give and Take and Originals Despite trillions of dollars in Western aid, 2.8 billion people worldwide still struggle in abject poverty. Yet the world’s richest countries continue

to send money—mostly to governments—targeting the symptoms, rather than the root causes of poverty. We need a better solution. In Give Work, Leila Janah offers a much-needed solution to solving poverty: incentivize everyone from entrepreneurs to big companies to give dignified, steady, fair-wage work to low-income people. Her social business, Samasource, connects people living below the poverty line—on roughly \$2 a day—to digital work for major tech companies. To date, the organization has provided over \$10 million in direct income to tens of thousands of people the

world had written off, dramatically altering the trajectory of entire communities for the better. Janah and her team go into the world's poorest regions—from refugee camps in Kenya to the Mississippi Delta in Arkansas—and train people to do digital work for companies like Google, Walmart, and Microsoft. Janah has tested various Give Work business models in all corners of the world. She shares poignant stories of people who have benefited from Samasource's work, where and why it hasn't worked, and offers a blueprint to fight poverty with an evidence-based,

techniques for scaling up at a dizzying pace that blows competitors out of the water. The objective of Blitzscaling is not to go from zero to one, but from one to one billion –as quickly as possible. When growing at a breakneck pace, getting to next level requires very different strategies from those that got you to where you are today. In a book inspired by their popular class at Stanford Business School, Hoffman and Yeh reveal how to navigate the necessary shifts and weather the unique challenges that arise at each stage of a company's life cycle, such as: how to
