Routledge Handbooks In  
Applied Linguistics

While applied epistemology has been neglected for much of the twentieth century, it has seen emerging interest in recent years, with key thinkers in the field helping to put it on the philosophical map. Although it is an old tradition, current technological and social developments have dramatically changed both the questions it faces and the methodology required to answer those questions. Recent developments also make it a particularly important and exciting area for research and teaching in the twenty-first century. The Routledge Handbook of Applied
