The Tao of Philosophy is a literary adaptation of talks selected to introduce the new "Love of Wisdom" series by Alan Watts to today's audiences. The following chapters provide rich examples of the way in which the philosophy of the Tao is as contemporary today as it was when it flourished in China thousands of years ago. Perhaps most significantly, these selections offer modern society a clearer understanding of what it will take for a successful reintegration of humans in nature.

Featuring the edited transcripts of eight lectures delivered by Alan Watts from 1960 to 1973. The Tao of Philosophy offers a rich introduction to the wit and wisdom of one of the foremost philosophers of the

From the founder of the Wu-Tang Clan—celebrating their 25th anniversary this year—an inspirational book for the hip hop fan. The RZA, founder of the Wu-Tang Clan, imparts the lessons he's learned on his journey from the Staten Island projects to international superstardom. A devout student of knowledge in every form in which he's found it, he distills here the wisdom he's acquired into seven "pillars," each based on a formative event in his life—from the moment he first heard the call of hip-hop to the death of his cousin and Clan-mate, Russell Jones, aka ODB. Delivered in RZA's unmistakable style, at once surprising, profound, and provocative, *The Tao of Wu* is a spiritual memoir the world has never seen before, and will never see again. A nonfiction Siddhartha for the hip-hop generation from the author of *The Wu-Tang Manual*, it will enlighten, entertain, and inspire.

The Tao Te Ching is fundamental to the Taoist school of Chinese philosophy and strongly influenced other schools, such as Legalism and Neo-Confucianism. This ancient book is also central in Chinese religion, not only for Taoism but Chinese Buddhism, which when first introduced into China was largely interpreted through the use of Taoist words and concepts. Many Chinese artists, including poets, painters, calligraphers, and even gardeners have used the Tao Te Ching as a source of inspiration. Its influence has also spread widely outside East Asia, aided by hundreds of translations into Western languages. The premise of The Tao of Zen is that Zen is really Taoism in the disguise of Buddhism—an assumption being made by more and more Zen scholars. This is the first Zen book that links the long-noted philosophical similarities of Taoism and Zen. The author traces the evolution of Ch'an The The Tao of Zen is a fascinating book that will be read and discussed by anyone interested in both Taoism and Zen

Alan Watts — noted author and respected authority on Far Eastern thought — studied Taoism extensively, and in his final years moved to a quiet cabin in the mountains and dedicated himself almost exclusively to meditating and writing on the Tao. This new book gives us an opportunity to not only understand the concept of the Tao but to experience the Tao as a personal practice of liberation from the limitations imposed by the common beliefs within our culture. The philosophy of the Tao offers a way to understand the value of ourselves as free-willed individuals enfolded within the ever-changing patterns of nature. The path of the Tao is perhaps the most puzzling way of liberation to come to us from the Far East in the last century. It is both practical and esoteric, and it has a surprisingly comfortable quality of thought that

is often overlooked by Western readers who never venture beyond the unfamiliar quality of the word Tao (pronounced "dow"). But those who do soon discover a way of understanding and living with the world that has profound implications for us today in so-called modern societies. The word Tao means the Way — in the sense of a path, a way to go — but it also means nature, in the sense of one's true nature, and the nature of the universe. Often described as the philosophy of nature, we find the origins of Taoism in the shamanic world of pre-Dynastic China. Living close to the earth, one sees the wisdom of not interfering, and letting things go their way. It is the wisdom of swimming with the current, splitting wood along the grain, and seeking to understand human nature instead of changing it. Every creature finds its way according to the laws of nature, and each of us has our own inner path — or Tao.

'Of ways you may speak, but not the Perennial Way; By names you may name, but not the Perennial Name.' The best-loved of all the classical books of China and the most universally popular, the Daodejing or Classic of the Way and Life-Force is a work that defies definition. It encapsulates the main tenets of Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the disparate demands of daily life and achieve a more profound

Chinese people are known for being philosophical. A person doesn't necessarily have to be religious in order to be philosophical. You just have to learn the best ways to live your life so that you can have a more prosperous future. A classic Chinese manual entitled "Tao Te Ching" teaches people the art of living and the path you must take in order to find fulfillment in your life. This classic Chinese text was written by a sage named Laozi, also known as Lao Tzu. Laozi means "Old Master" in Chinese. Some people like to refer to this classic Chinese text as Laozi instead of Tao Te Ching because they have so much respect for the author. The sage, Laozi, is believed to have lived around 600 B.C. In his professional life, he worked as a record keeper for the Zhou Dynasty Court. However, historians are still unsure about the exact date and time when the Tao Te Ching was actually written. The only thing they know is that the oldest Chinese texts that were

excavated dates back to sometime in the late 4th century B.C. Even though they were originally written in the 6th century, the texts that were excavated in the 4th century are likely rewritten texts. The Tao Te Ching is one of the main Chinese classic texts that promote the religious and philosophical principles of Taoism. It is the most fundamental book of text that is studied by all Taoists. It is also a strong influence on other Chinese schools that teach Confucianism, Legalism and Chinese Buddhism. Chinese painters, poets, gardeners and calligraphers use the philosophies of the book as a source of inspiration. The influence of the Tao Te Ching has spread far throughout Eastern Asia and is one of the most translated books ever written in the history of literature. In Roman culture, the book was transcribed using the Wade-Giles Romanization system. They transcribed the title as "Daodejing." The words "Dao" and "Tao" both mean "the way." The words "De" and "Te" both mean inner strength or virtuosity. And finally, the words "Jing" and "Ching" mean "classic" or "the great book." Therefore, the translation of Tao Te Ching and Daodejing is said to be "The Classic Way to Inner Strength." In other words, if you learn the philosophies in this book then you will have the knowledge of finding the right path to strength and happiness. Tao Te Ching is not a long book to read by any means. It is only 5,000 Chinese characters long with about 81 very brief sections or chapters. The writing is of a classical form of Chinese called zhuanshu. As the centuries went by, the later versions were written in Lishu and Kaishu. As for the chapters, no one knows if the separated chapters were originally placed there by Laozi or if they were added

later on. Some people think they were added later on as a way to help memorize the information and add commentary. The whole book is divided into two main parts. The first part is the Tao Ching, which goes from chapter 1 to chapter 37. The second part is the Te Ching, which goes from chapter 38 to chapter 81. Some even refer to this style of writing as laconic and poetic because of its brief chapters and intentional contradictions. This writing is strategic in a sense because it creates memorable phrases and then forces the reader to create their own reconciliations from all the supposed contradictions. This is why it takes some people their entire lives to fully understand the message behind the text. For others, they never fully grasp it.

"This book argues that Socrates, Athenian citizen in Classical Greece, was a Taoist sage and Zen master. His life was a work of art, rooted in the art of detached engagement: Taoist Wu-wei and Buddhist Madhyamaka. Socrates was the offspring of a philosophic tradition stretching back a century and a half, spread across the eastern Mediterranean. Schindler introduces these Presocratic thinkers, examines the life and teachings of Socrates, and explores Plato as a mythologizing philosopher. Taoism, Buddhism and Zen are introduced throughout the discourse, showing how Eastern Wisdom is reflected in The Birth of Western Philosophy. The adventure concludes with an exploration of the Greco-Buddhist insight that to be is to inter-be. The recovery of this idea overlaps with the quantum paradigm shift
