Being homeless in one's homeland is a colonial legacy for many Indigenous people in settler societies. The construction of Commonwealth nation-states from colonial settler societies depended on the dispossession of Indigenous peoples from their lands. The legacy of that dispossession and related attempts at assimilation that disrupted Indigenous practices, languages, and cultures—including patterns of housing and land use—can be seen today in the disproportionate number of Indigenous people affected by homelessness in both rural and urban settings. Essays in this collection explore the meaning and scope of Indigenous homelessness in the Canada, Australia, and New Zealand. They argue that effective policy and support programs aimed at relieving Indigenous homelessness must be rooted in Indigenous conceptions of home, land, and kinship, and cannot ignore the context of systemic inequality, institutionalization, landlessness, among other things, that stem from a history of colonialism. "Indigenous Homelessness: Perspectives from Canada, New Zealand and Australia" provides a comprehensive exploration of the Indigenous experience of homelessness. It testifies to ongoing cultural resilience and lays the groundwork for practices and policies designed to better address the conditions that lead to homelessness among Indigenous peoples.

This book discusses the perspectives and practices of teacher education programs in order to shed new light on the national priorities, policies, curriculum inputs, delivery mechanisms, challenges and future trends in 20 selected countries. It examines and compares the complexity of teacher education in international contexts, providing insights into educational change and reform in emerging democracies. Further, it includes cases from various countries

that reflect how the profession is moving forward. In order to deepen readers' understanding of teacher training and the challenges posed by globalization, the book concludes with a discussion of theoretical perspectives applied to teacher education, and with recommendations for new directions. Given its scope, the book is an essential read for teacher educators, students, and researchers working in the field of education.

In this volume, we examine the challenges and opportunities created by global migration at the start of the 21st century. Our focus extends beyond economic impact to questions of international law, human rights, and social and political incorporation. We examine immigrant outcomes and policy questions at the global, national, and local levels. Our primary purpose is to connect ethical, legal, and social science scholarship from a variety of disciplines in order to raise questions and generate new insights regarding patterns of migration and the design of useful policy. While the book incorporates studies of the evolution of immigration law globally and over the very long term, as well as considerations of the magnitude and determinants of immigrant flows at the global level, it places particular emphasis on the growth of immigration to the United States in the 1990s and early 2000s and provides new insights on the complex relationships between federal and state politics and regulation, popular misconceptions about the economic and social impacts of immigration, and the status of 'undocumented' immigrants.
